

## **It Goes Forward** **Letter #3 2009**

It feels like things are really moving forward now. Finally, I want to gladly express. I recently talked with a friend who works in one of the Safe Houses that Extraterrestrials have on Earth. She has started working there, again, after years of being gone. The Safe Houses have been standing empty since I think it was July 2006, if I don't remember it wrong, of course. She is welcomed, but *we* are not really openly invited *yet*. First they sent down and back the Extraterrestrials to Earth and the Safe Houses. Then they invited the Earthy service personnel to come back. And that is happening right now on Earth. The personnel have expressed that they have a lot to do. My contact has started to work full time; something that has never been done before. The personnel take on their daily duties and many new forms of work. When they are fully installed, it is our turn. "*We*" means the contact and link persons will then have a possibility to enter. As soon as we are inside, we can renew our duties and also start planning. All of us hope that that means that we have full access to landing times and much more. Because it is then that we could start traveling out. Well, yeah, that is how it has been planned.

After this enormous challenge to put back all the Extraterrestrials, I hardly think that they can back out again. So now, it has to happen! Our Spiritual Evolution's understandings and the New Earth – here we come!!!

All the planning has this time been done very carefully. My contact in the houses has said she has never seen anything like this before. She has worked for the Extraterrestrials in a total of 32 years. It is also another kind of a *feeling* in the houses nowadays. It seems to be that the Extraterrestrials are hooking up together mentally all over the Earth. They are connecting with a grid of mental force for strengthening and helping Mother Earth in Her process.

Everything of that is done, so it will be smoother when everything starts and everyone is going out and so on. And we will be many who are going out. There are many who are going out for Level 5 classes and Net 10 and so on. Oh, my gosh! By my source in the houses, it will be very many people that have to go out. In all, it will be 6 million the world over. Myself, I didn't think this was possible. So I started counting backwards around myself only.

*How many classes of Universal White Time Healing Level 4 students have I trained? How many teachers of Level 4 have I trained? How many Level 4 teachers do I know in the world? How many NET 9 participants have I had? How many classes could those participants have by themselves? How many could they have educated themselves, like friends? And how many of those friends have taught people in the next step, and so on?*

Very fast, I came up to thousands of people in the world, only around me, as one person. And how many more Level 4 teachers and contact persons and link persons are there really in the world, except those that I know myself? And every one of those people will probably think the same thing when they heard the big amount of people who will be going out. 6 Million! Wow!

My contact in the house also said she read through the material about Earth and when she did, she was feeling like Mother Earth didn't want us to leave Her before in Extraterrestrials travel and with our consciousnesses or with more active forms of Soul travel. Maybe, therefore, it has been kind of slow and difficult for some of us to have a crystal memory of the night's travels, etc. She said that for every day that goes, Earth is strengthened and, by that, it could be clearly seen that we don't need to put as much energy in to the human particle physicality as it was said and planned before.

I then screamed aloud. The last thing she said was with joy and she was, of course, wondering about my reaction. I said to her, "*You don't mean that they will wait with the travel until everything is normal again? I want to get out Now!*"

She then told me that I was wrong. It doesn't mean if we need to work on a particle level or not for the continuation and I was relieved to hear this because I am longing to get out right now.

Some of you have probably felt that there is something strange with the ground energies, though. It is, therefore, that the Extraterrestrials are working with a grid of energy for Mother Earth's well-being.

If you want to, you can connect together with them and the grid. If you want to do that, you do it like this:

*Think that you see Mother Earth on a distance in Space come closer like NASA's beautiful space pictures of the Sun illuminating part of Earth.*

*Think that you create a Golden Grid or Net, where perfect squares are still showing the Earth's surface below. The Grid, or Net, has yarn or lines that are wide and vibrating. The Gold color is pulsating like it is alive.*

*Now, slowly let the Grid or Net down towards the surface until you get a contact on the right wave length for the Extraterrestrials. It is almost like you will hear or experience them. The Net will never touch the ground.*

*Now create in every Cross-point, very delicate vertical lines that reach the surface of the Earth. Try to see it touch the topography with mountains and valleys. Try to see it adapt to the topography of the mountains and valleys. And think the same about underneath the water surface.*

*Now, look again from the outside, in Space. And look at your shimmering network of energies. Then turn your eyes toward the Galaxy's middle and Light. Think that you are borrowing beams of Light from there. This will then be created in the upper part of the Cross-points in the network where the lines meet. Now the network of energies will turn White in the color.*

Try to stick with this kind of a feeling and thought, as long as you can. Every step of this Meditation will help you and everything that is here on Earth.

Good luck with that! And I will soon return with more information.

Hugs,  
Channie
